The establishment started on a large plan, but successive enlargements have been necessary to accommodate the rapidly increasing business. MADAM OR SIR: Thirteen years ago we inaugurated what has since revolutionized the retail trade of Washington-a cash business. Popular prices were then unknown here, and even to-day there is not one of our leading competitors whose business is not largely credit. Do you properly appreciate the advantages of our cash business? In buying, we command extra discounts. In selling, smaller profits than possible with the credit merchants. That this is true may be demonstrated in a thousand instances, and especially in regard to the best grades of goods, for you will find that the credit merchants generally make good the losses inseparable from their business by

Extra Profits on the Goods Not Easily Valued by You.

We would not depreciate our brother merchants, whose Credit business fill a necessary want. We only ask them to "render unto Cæsar the things that are Cæsar's." The cash business is ours, the credit business theirs. To you who pay promptly we ask: Is it just that you should suffer because of the losses and extra expense attending a credit business? Is it wise or necessary, when we offer price inducements the credit merchants cannot grant, even if they would. Respectfully yours,
